"Since working with Vanto Group we have a completely different team and a different dynamic. I no longer have to keep on top of everything. The team decides what needs to be done, who needs help and things just get done. We have successfully completed our accreditation process and increased our Practice efficiency, which has directly impacted revenue."

We have changed the way we communicate. People are now willing to speak up and address what doesn't work because they see a breakdown as an opportunity get things resolved. Everyone now feels like they have a voice. When making decisions, the team is thinking from the future we created together. We are now talking about who we are for our community and we feel proud."

Kylie Sterry
Principal of Plaza Medical Practice, Australia
